

VYZVOICE S.A.

ITRUST ADACOR WORKSHOP – DATA COLLECTION FOR IOT

WEDNESDAY, 20 APRIL 2016

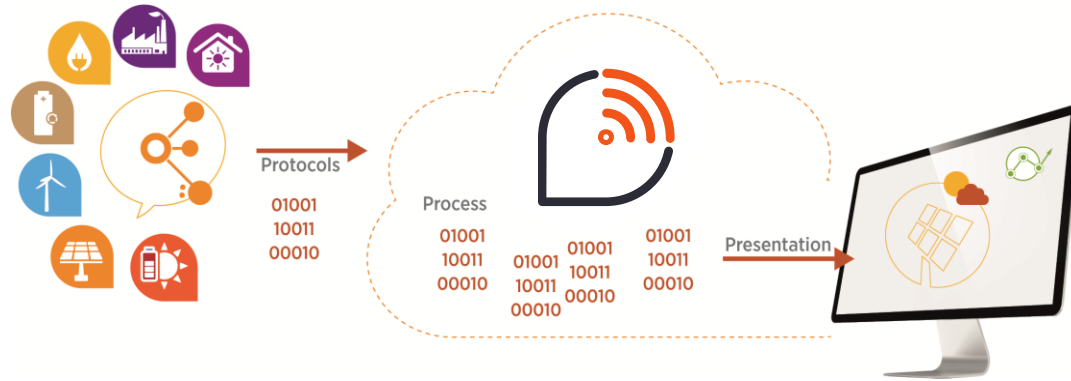

A leading provider of advanced cloud-based, Big Data solutions for IoT monitoring, analytics and visualization.

Established in Luxembourg in 2010, now with 25 highly talented specialists working across multiple disciplines including software engineering, analytics and human-interface design.

Our framework is focused on providing users of information with a secure, Big Data platform that is the basis for smarter decisions.

vyzVoice in Windhof

Integration:

- A platform that allows customers to make sense of their data
